

## OKAMURA announces the launch of the “**Manifold**” office system

OKAMURA CORPORATION has released its new “**Manifold**” office system.

In today's world, working styles vary by corporate identity, business industry, job category, and employee, and “**Manifold**” is the total office system that can fit into any workplace.

“**Manifold**” begins with a common simple structure and can be expanded into 4 basic types – Bench, Table, Free-standing, and Low-partition. Also, by combining optional storage, panels, and trays with the bountiful color variations, “**Manifold**” can accommodate into any office situation.

From management offices and meeting areas to free address, individual work areas, and more, “**Manifold**” creates unique offices tailored to various situations in any industry or occupation.

### - “**Manifold**” Key Features -

#### ■ Various layouts with optimal specs and options

“**Manifold**” uses 4 basic desk structures. The Bench and Table types have a large tabletop that can be shared by many people and utilized in various ways. The Free-standing type offers flexibility for a layout. The Low-partition type provides solid partitions for teams and individuals while keeping a sense of unity and concentration on their work.

“**Manifold**” can be optimized to suit layout plans, spaces, and other purposes.

By selecting options and color variations, “**Manifold**” offers various and unique workplaces to match diverse working styles such as free address, project work, or solo-work.
